Hi there I'm Ian, a designer/developer based in Appalachia. I do tailored, thoughtful, and kind work for companies that let me sweat the details for them. Currently, I'm focusing on building brands and interfaces.

MONO MONO — Partner
2016 - Present
Experimental design and development shop alongside Garrett DeRossett. Taking on select clients in 2016.

Tiz — Product Designer & Frontend Developer
2016 - 2017
Designed initial user experience for universal ordering platform. Worked on a three person engineering team to get from MVP to production ready product in three months

Chute — Frontend Developer
2015 - 2016
Built client-side applications for an array of Chute owned UGC products. Worked on projects for enterprise customers Coca Cola, CVS, Frito Lay, Wyndam, among others.

Contract Work
2015 - Present
Product design and fullstack development for a variety of companies including Appirio, Earnest, Ezra's, Formlets, JDS Labs, Soundset Festival, among others.

Authentic F&F — Designer & Developer
2014
UI design, frontend development, and CMS builds for small to medium sized companies.

The Roanoke Times — Web Designer
2013 - 2014
Designed and developed Wordpress builds and developed print marketing materials and online ad campaigns for a variety of clients.

Virginia Western Community College
(AAS 2012) Communication Design
